Strategic Actionable Insights

1. Bridge the Target Gap & Revenue Growth:

Our total profit stands at \$3.53K, which represents a critical gap (-99.5%) from our ambitious target goal of \$700K.

Recommendation: To bridge this gap, we must scale operations and heavily promote our top-performing products (Bakery and Coffee categories) which drive the bulk of our revenue, while executing targeted marketing campaigns in lower-performing locations.

2. Optimize Morning Operations & Staffing:

Customer feedback from the Word Cloud highlights severe bottlenecks during peak hours (frequent mentions of "morning", "time", "slow", and "understaffed").

Recommendation: Align staff scheduling with peak transaction periods, particularly during the morning rush. Optimizing barista workflows and increasing front-line staff during these hours will reduce wait times, increase customer satisfaction, and drive higher transaction volume.
